Introduction

HKUST - A dynamic, international research university, in relentless pursuit of excellence, leading the advance of science and technology, and educating the new generation of front-runners for Asia and the world. Since its official opening in October 1991, the Hong Kong University of Science and Technology has established itself as an intellectual powerhouse, energizing the community's transformation into a knowledge-based society, and securing a place on the academic world map in record-breaking time. An innovator in research and teaching, HKUST is the only science and technology research university in Hong Kong. Its groundbreaking work in science, engineering, business, humanities and social science is successfully pushing back the boundaries of the information age. Such advances are assisted by the University's top-class facilities. Locally, the University is active in society through science camps, online courses for secondary school students, and lifelong learning programs; just some of the activities that bring HKUST and the community together. Nationally, alliances with Mainland universities and collaborative work with municipal governments are setting the
